

“For K-12 students and individuals looking to reskill or transition from non-cyber career, CISA’s micro-challenges provide an opportunity to experience first-hand the knowledge, skills, and tasks performed in the top cybersecurity workforce roles.”

TRY CYBER

“Users are led through an interactive learning environment and provided information about the workforce role and cybersecurity education, training, and career opportunities once the challenge is completed.”

“CISA Publishes New Cybersecurity Career Awareness Challenges.”
Cybersecurity and Infrastructure Security Agency CISA, 21 Sept. 2023,
www.cisa.gov/news-events/news/cisa-publishes-new-cybersecurity-career-awareness-challenges.

“As a new feature within Cyber Careers Pathway Tool, the micro-challenges consist of 14 hands-on experiences that allow users, whether self-paced or through instruction, to complete several core cybersecurity workforce tasks, while exploring the knowledge and skills necessary to complete the tasks.”
